

What is a Comprehensive Community Plan (CCP)?

A CCP is a strategic document that provides direction to our leadership and administration across a holistic range of areas, touching on all aspects of community life. The CCP includes visions, goals, and objectives in each planning area. It identifies specific actions, implementation steps, and a monitoring and review strategy to help us achieve our vision.

Members are Shaping Our CCP!

The CCP Survey, Open House, Elders Dinner, and Family Focus Groups have provided us with great feedback on your vision, goals, and priorities for Tzeachten First Nation. We are using this information to create the CCP.

Crafting the CCP

The CCP Team is working through the Covid-19 pandemic. The summer will be busy as we:

- Use **community inputs** to create the CCP document
- Meet with the **CCP Working Group** to seek guidance and direction
- Host **Focus Group Sessions** to continue to seek feedback from our members
- Plan for more **in-person engagement** in the Fall
